## **ABSTRACT**

Polythiophenes of the formula

$$\begin{array}{c|c} R & R' \\ \hline \left( S \right)_{X} & S \end{array}$$

wherein R and R' are side chains; A is a divalent linkage; x and y represent the number of unsubstituted thienylene units; z is 0 or 1, and wherein the sum of x and y is greater than zero; x0 represents the number of segments; and x1 represents the degree of polymerization.
